VA Design Lead

OCTO Mission:

Our mission is to improve Veterans' lives with better software.

2025 OCTO Objectives	Key Results
O1: VA's digital experiences are the easiest and most efficient way to access VA health care and benefits.	<ul style="list-style-type: none">1.1 Improve satisfaction with our web and mobile products by 5 points.1.2 We have reduced the total time Veterans spend waiting for a response from our digital experiences by 50%, towards a goal of less than 4 seconds per transaction.1.3 100% of transactions received via our digital experiences are either processed correctly or we have notified the user of an error.
O2: OCTO's platforms are the fastest, most efficient, and most secure way to deliver products at VA.	<ul style="list-style-type: none">2.1 100% of authentications to our systems and tools (both Veteran-facing and internal) occur using a secure credential.2.2 We have reduced the total error rates in our platforms by 50% compared to Q4 2024, towards a goal less than 1% per endpoint.2.3 100% of VA employees have access to a valuable Generative AI tool to help with their work.2.4 Each of our platforms* and tools increase the number of non-OCTO built capabilities or non-OCTO users by 50%. (*excluding mobile)
O3: OCTO teammates are empowered with the knowledge and resources they need to make sustained impact.	<ul style="list-style-type: none">3.1 Team members reporting more than a reasonable amount of stress is 5 points lower for each quarter in 2025 than it was in the corresponding quarter in 2024.3.2 Every OCTO Portfolio identifies 2 or more strategic decisions per quarter that would benefit the larger OCTO team, and documents them publicly in a shared location.3.3 75% or more team members are confident they have the knowledge needed to make effective decisions.
O4: OCTO positively influences VA's ability to deliver software products and services faster, safer, and with higher quality.	<ul style="list-style-type: none">4.1 OCTO has delivered at least 10 impactful artifacts or learning activities (e.g., trainings, guides, COP meetings) focused on improving delivery practices that achieve an NPS score of 30 or higher from the target OIT delivery staff.4.2 OCTO has helped resolve/support at least 10 significant engineering issues or products outside our portfolio.4.3 Five or more non-OCTO teams have used SPRUCE to deliver high quality software.

Sprint 14 Ticket Changes

Our Vision: Every Veteran is guaranteed access to self-service benefits and accurate data

Our Mission: Continuously deliver high-quality digital experiences for the benefit of all Veterans and their families

Rollover from Sprint 13

- None

Added to the Sprint Post-Planning

- [284](#) Investigate multiTap v. tap in loginToDemoMode (complete)
- [338](#) Zoom considerations: iOS (Peer Review, expected to roll to Sprint 15 because the work has not been reviewed yet)
- [339](#) Zoom considerations: Android (Peer Review, expected to roll to Sprint 15 because the work has not been reviewed yet)
- [340](#) Screen Orientation (complete)
- [363](#) Wrap up GSL Current State (complete)
- [367](#) Spike: Research how to get local environments prepared to implement web work (complete)
- [368](#) Pre-need Burial: Research: Review and clean transcripts (complete)

Removed from the Sprint Post-Planning

- [352](#) Analytics Research for VLM (Removed from sprint as this ticket is no longer needed since we are wrapping up the GSL work in its current state)

Sprint 14 Completed Tickets

Our Vision: Every Veteran is guaranteed access to self-service benefits and accurate data

Our Mission: Continuously deliver high-quality digital experiences for the benefit of all Veterans and their families

Product Completed

- [252](#) Define and Document KPIs

UX Completed

- [354](#) Tag Notes by Category to Find Patterns
- [353](#) Finalize Research Objectives
- [356](#) Create First Draft of Research Readout
- [355](#) Identify Key Themes from Categorized Notes

Sprint 14 Completed Tickets Cont.

Our Vision: Every Veteran is guaranteed access to self-service benefits and accurate data

Our Mission: Continuously deliver high-quality digital experiences for the benefit of all Veterans and their families

Engineering Completed

- [345](#) Add Low Traffic Monitor
- [346](#) Add High Error Monitor
- [351](#) Stakeholder Testing - Surfacing
- [336](#) Redesign and Content Updates
- [337](#) Additional Content Updates
- [344](#) Add Differentiation for Mobile App: statsd
- [343](#) Add Differentiation for Mobile App Call Logging
- [280](#) Spike: Android Vibrations Improvements
- [247](#) Spike: Research Better Workflow for Github Action Changes in va-mobile-library

Continuation of Work into Sprint 15

Our Vision: Every Veteran is guaranteed access to self-service benefits and accurate data

Our Mission: Continuously deliver high-quality digital experiences for the benefit of all Veterans and their families

In Progress

- [361](#) Pre-Release Veteran Status Card Error Flow/Surfacing (Expected to roll to Sprint 15 as the work this ticket is tracking has not been merged yet and a release date has not been confirmed)

Natalie | Product Updates

Veteran Status Card

- Met with IIR Product Manager to understand the scope of the work and changes being implemented on the web
- Kickoff call with the MFS team to align on the problem being solved, designs, and breakdown of engineering work
- Continue to update IIR on this effort

Future Work

- Conducting preliminary intake of the new work (OneVA Debt Letter, Return to Active Duty, Form Status)
- Continue to have conversations to understand the scope of the work

Veteran Status Card

Name

Mitchell Campbell-Gillies

Latest period of service

United States Army • 2009-2013

DoD ID number

6198661986

VA disability rating

70%

This card doesn't entitle you to any VA benefits.

Natasha/Emily | Pre-Need Burial

Discipline (UX)

Pre-Need Burial

- Tagged interview notes to find patterns
- Identified key themes from categorized notes
- Began the research readout
- Reviewed and cleaned transcripts for PII/PHI
- Began uploading research artifacts to GitHub
- Had our first sync with the Pre-Need Burial Team

The screenshot shows a Notion table with the following structure:

	A	B	C	D	
1	Par	Note	Category: Primary	Category: Secondary	#
389	P07	VA should be more involved in getting you from your house to the dirt With previous friends, funeral home handled all dialogue with VA	Sources of benefits information	burials	
404	P08	Can't recall seeing much info on burial benefits	Sources of benefits information	burials	
430	P08	Prefers to visit the VA in person if he has any questions or needs assistance	Sources of benefits information	burials	
431	P08	Skeptical for going to a funeral home to see what they have for Veterans (has filled out a form through a talk at his church, but no one called)	Sources of benefits information	burials	
466	P09	Learned basic burial information from VA pamphlets, bulletin boards, and emails.	Sources of benefits information	burials	
479	P09	Would prefer to Google burial benefits info, likely on the VA site.	Sources of benefits information	burials	
542	P10	Learned all about funerals during active duty (honor guard): Over 1,000 military funerals conducted during service	Sources of benefits information	burials	
543	P10	Limited knowledge of burial benefits available, learned mostly through VA website exploration	Sources of benefits information	burials	
595	P11	Learned about burial benefits from family experience (grandparents' military service).	Sources of benefits information	burials	
596	P11	Grew up understanding memorial burial options due to family history.	Sources of benefits information	burials	
648	P12	Learned about burial benefits through the 800 number	Sources of benefits information	burials	
650	P12	Thinks they should have posters or pamphlets at VA clinics Can't recall seeing anything like that	Sources of benefits information	burials	
707	P13	Learned burial benefits through independent research on VA website Also from VFW and DAV	Sources of benefits information	burials	
714	P13	Learned about the pre-need application through VA.gov	Sources of benefits information	burials	
764	P15	Unaware of complete burial benefits	Sources of benefits information	burials	

At the bottom of the table, there is a status bar indicating "37 of 1,517 rows displayed".

Natasha/Emily | Veteran Status Card

Discipline (UX)

Veteran Status Card

- Reviewed IIR's web designs for Veteran Status Card, staging.va.gov, and the VADS in preparation for our team to start work
- Met with IIR and Profile to discuss potential changes for Veteran Status Card placement within the Profile Hub on VA.gov

The screenshot shows the VA.gov website interface. At the top, there's a dark blue header with the VA logo, U.S. Department of Veterans Affairs, and navigation links like Search, Contact us, and User. Below this is a secondary navigation bar with links for VA Benefits and Health Care, About VA, Find a VA Location, My VA, and My HealtheVet. The main content area is titled 'Veteran Status Card' and includes a brief description: 'This card makes it easy to prove your service and access Veteran discounts, all while keeping your personal information secure.' A prominent yellow warning box states: 'There's a problem with your discharge status records. We're sorry. To fix the problem with your records, call the Defense Manpower Data Center at 800-538-9552 (TTY: 711). They're open Monday through Friday, 8:00 a.m. to 8:00 p.m. ET.' Below this is a 'Frequently asked questions' section with four questions and expandable answers. On the left, a sidebar menu lists various profile sections, with 'Veteran Status Card' currently selected.

VA.gov/home > Profile > **Veteran Status Card**

Profile

- Personal information
- Contact information
- Personal health care contacts
- Military information
- Veteran Status Card**
- Direct deposit information
- Notification settings
- Account security
- Connected apps

Veteran Status Card

This card makes it easy to prove your service and access Veteran discounts, all while keeping your personal information secure.

⚠️ There's a problem with your discharge status records
We're sorry. To fix the problem with your records, call the Defense Manpower Data Center at [800-538-9552](tel:8005389552) (TTY: 711). They're open Monday through Friday, 8:00 a.m. to 8:00 p.m. ET.

Engineering (Matt & Kim) | Veteran Status Redesign

Discipline (Engineering)

Explanation of the work: Redesigned the look of the Veteran Status Card to align with new Figma designs.

[Link to Video](#)

- **The problem:** Simplified data shown to users so large component was no longer necessary. Condensed critical info into more compact design. Needs to mesh with new warnings we added.
- **Why is this a problem:** Also, updating VSC on web and need a consistent look.
- **Solution:**
 - [336](#), [337](#), [340](#): Involved updating the look of the VSC and ensuring it looks good on portrait or landscape.
 - [338](#), [339](#): Improving zoom for VSC

Engineering | Monitors and Logs

Discipline (Engineering)

Explanation of the work: Set up logging differentiation and traffic monitors for VSC Error Improvements

- **The problem:** Mobile utilizes shared services with platform and the logging gets all grouped together
- **Why is this a problem:** We want to be able to accurately track what is happening on Mobile vs Web
- **Solution:** Extended the base classes and utilized our own statsD keys so that our logging will appear in datadog separately and can be tracked.

Engineering | Web Development Setup

Discipline (Engineering)

Explanation of the work: Research setting up our environments for VA.gov web development.

- **The problem:** Engineers are new to VA.gov web development and we need to understand how to prep our environments to contribute in this area.
- **Why is this a problem:** Our team will be making updates to the Veteran Status Card on VA.gov in upcoming sprints.
- **Solution:** [Spike 367](#)
 - Studied the VA.gov frontend documentation
 - Successfully set up a single system for frontend development
 - Documented all findings so other developers can ramp up quickly

Sprint 15

Sprint 15 Goals

Our Vision: Every Veteran is guaranteed access to self-service benefits and accurate data

Our Mission: Continuously deliver high-quality digital experiences for the benefit of all Veterans and their families

- Ensure that the VSC error messaging and proof of status button for ineligible Veterans is approved and merged to release on 4/22.
- Start the stakeholder testing for the mobile VSC redesign work.
- All MFS engineers have successfully set up their environment to develop on VA.gov, allowing the team to positively impact Veterans accessing benefits through the web.
- Ease the burden for Veterans by beginning the implementation of IIR's industry-standard redesign on VA.gov.
- Create a research readout for Pre-Need Burial and submit it to the MFS team for internal review so that we understand how this effort can best support Veterans.
- Develop a Debt Services Product Brief to ensure that research efforts can begin promptly and then team is aligned on how this effort can support Veterans.

Sprint 15 Committed Work

Our Vision: Every Veteran is guaranteed access to self-service benefits and accurate data

Our Mission: Continuously deliver high-quality digital experiences for the benefit of all Veterans and their families

Veteran Status Card: Surfacing for All Users

- [379](#) Release VSC error messaging to the VA Mobile App
